JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SMYRNA—Cholera.

Vice-Consul Magnifico reports November 21:

From November 12, when the first case of cholera was verified, to November 21 there have been 10 cases of cholera with 4 deaths.

ZANZIBAR.

ZANZIBAR—Smallpox.

Consul Weddell reports November 7:

From October 24 to November 6 there were reported 10 deaths from smallpox. The total number of cases reported from June 8, the date of the beginning of the outbreak, to November 6, is 197; deaths 98. The total number of vaccinations performed during that period was 25,857.

CHOLERA, YELLOW FEVER, PLAGUE, AND SMALLPOX.

Reports Received During Week ended December 30, 1910.

[These tables include cases and deaths recorded in reports received by the Surgeon General, Public Health and Marine-Hospital Service, from American consuls through the Department of State and from other sources.]
